

May 2026

Register to Attend Florida Blue's June Quality Innovations Webinar

Our next Quality Innovations Webinar session is on **Tuesday, June 30, 2026**, from **noon – 1 p.m. ET**. This Healthcare Effectiveness Data and Information Set (HEDIS®) educational program will highlight key measures and best practices to support high-quality patient care.

This webinar will explore strategies for improving patient care by addressing key clinical challenges, including reducing antibiotic overuse, managing low back pain and osteoporosis, mitigating fall risks in older adults, and enhancing patient experience and access to care. Through evidence-based guidelines and practical applications, attendees will learn how to implement effective solutions to these common health care issues.

Be sure to [register](#) for the webinar and reference the following plan-specific measures that will be covered:

- [Commercial and Federal Employee Program® measures](#)
- [Medicare measures](#)

About Our Quality Innovations Webinars

Florida Blue senior medical directors share the latest guidelines, insights, and best practices about HEDIS measures and how to close care gaps. Interactive sessions include question and answer segments, allowing participants to engage with the presenter. We encourage physicians, advanced practice clinicians, nurses, population health staff, clinical training staff, quality care team members, and coding staff to attend.

The AAFP has reviewed Quality Innovations Webinar, and deemed it acceptable for AAFP credit. Term of approval is from 06/30/2026 to 12/31/2026. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This session Quality Innovations Webinar: Acute Event is approved for 1.00 online AAFP Prescribed credit.
