

July 2026

Register to Attend Florida Blue's August Quality Innovations Webinar

Our 2026 Quality Innovations Webinar series continues. The next session will be held on **Tuesday, August 25, 2026**, from noon – 1:30 p.m. ET. This Healthcare Effectiveness Data and Information Set (HEDIS^{®1}) educational program will highlight key behavioral health measures and best practices to support high-quality patient care.

This webinar will help equip health care professionals with practical strategies to integrate behavioral health into primary care. We will share evidence-based screening and assessment techniques, collaborative care models, and how to recognize behavioral health conditions across diverse patient populations. Participants will learn about helpful tools for implementing effective interventions and establishing robust follow-up protocols, ultimately helping improve patient outcomes.

Be sure to [register](#) for the webinar to learn more about [plan-specific HEDIS measures](#).

About Our Quality Innovations Webinars

Florida Blue senior medical directors share the latest guidelines, insights, and best practices about HEDIS measures related to a specific topic and how to close care gaps. Interactive sessions include question and answer segments, allowing participants to engage with the presenter. We encourage physicians, advanced practice clinicians, nurses, population health staff, clinical training staff, quality care team members, and coding staff to attend.

AAFP has reviewed Quality Innovations Webinar and deemed it acceptable for AAFP credit. Term of approval is from August 25, 2026, through December 31, 2026. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This session Quality Innovations Webinar: Behavioral Health is approved for 1.50 online AAFP prescribed credit.
