Disclosure Statement

The Truli for Health HIPAA Transaction Standard Companion Guide for EDI Transactions Technical Reports, Type three (3) (TR3) provides guidelines for submitting electronic batch transactions. Because the HIPAA ASC X12-TR3s require transmitters and receivers to make certain determinations /elections (e.g., whether, or to what extent, situational data elements apply) this Companion Guide documents those determinations, elections, assumptions or data issues that are permitted to be specific to Truli for Health business processes when implementing the HIPAA ASC X12 5010 TR3s.

This Companion Guide does not replace or cover all segments specified in the HIPAA ASC X12 TR3s. It does not attempt to amend any of the requirements of the TR3s or impose any additional obligations on trading partners of Truli for Health that are not permitted to be imposed by the HIPAA Standards for Electronic Transactions. This Companion Guide provides information on Truli for Health specific codes relevant to Truli for Health business processes, rules and situations that are within the parameters of HIPAA. Readers of this Companion Guide should be acquainted with the HIPAA ASC X12 TR3s, their structure and content.

This Companion Guide provides supplemental information that exists between Truli for Health and its trading partners. Trading partners should refer to their trading partner Agreement for guidelines pertaining to Availity, LLC legal conditions surrounding the implementation of the EDI transactions and code sets. However, trading partners should refer to this Companion Guide for information on Truli for Health business rules or technical requirements regarding the implementation of HIPAA-compliant EDI transactions and code sets.

Nothing contained in this Companion Guide is intended to amend, revoke, contradict or otherwise alter the terms and conditions of your applicable trading partner agreement. If there is an inconsistency between the terms of this Companion Guide and the terms of your applicable trading partner agreement, the terms of the Trading partner agreement will govern. If there is an inconsistency between the terms of this Companion Guide and any terms of the TR3, the relevant TR3 will govern with respect to HIPAA edits and this Companion Guide will govern with respect to business edits.

1 INTRODUCTION

The Health Insurance Portability and Accountability Act (HIPAA) requires the health care industry in the United States to comply with the electronic data interchange (EDI) standards as established by the Secretary of Health and Human Services. The Technical Reports Type three (3) Guides (TR3s) for the ANSI 837 I Health Care Claim Institutional transaction specifies in detail the required formats. It contains requirements for the use of specific segments and specific data elements within segments and was written for all health care providers and other submitters. It is critical that your software vendor or IT staff review this document carefully and follow its requirements to send HIPAA-compliant files to Truli for Health via your vendor The ASC X12 005010X222A1 is the established standard for Health Care Institutional Claims (837I).

1.1 Scope

This ANSI 837 I Companion Guide was created for Truli for Health trading partners to supplement the ANSI 837 I TR3. It describes the data content, Truli for Health business rules and characteristics of the 837 I transaction. If you submit your transactions through Availity, please also refer to the Availity EDI guide [availity.com](https://www.availity.com).

1.2 Overview

The Technical Report Type three (3) Guide (TR3) for the 837 I Health Care Institutional Claim transactions specifies in detail the required formats. It contains requirements for the use of specific segments and specific data elements within segments and was written for all health care providers and other submitters. It is critical that your software vendor or IT staff review this document carefully and follow its requirements to send HIPAA-compliant files to Truli for Health via your vendor.

Holiday Schedule

Our company observes the following holidays for 2024:

1. New Year's Day - Monday, January 1
2. Martin Luther King Jr. Day - Monday, January 15
3. Memorial Day - Monday, May 27
4. Juneteenth - Wednesday, June 19
5. Independence Day - Thursday, July 4
6. Labor Day - Monday, September 2
7. Thanksgiving Holiday - Thursday, November 28 & Friday, November 29
8. Christmas Holiday - Tuesday, December 24 & Wednesday, December 25

If a holiday falls on a day when our company doesn't operate, we will observe that holiday on the closest business day. For example, if a holiday falls on a Sunday, the following Monday will be observed as a holiday.

2 GETTING STARTED

2.1 Working with Truli for Health

Availity optimizes information exchange between multiple health care stakeholders through a single, secure network. The Availity Health Information Network encompasses administrative, financial, and clinical services, supporting both real-time and batch EDI via the web and through business to business (B2B) integration. For more information, including an online demonstration, please visit availity.com or call 800-282-4548.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Truli for Health is a trade name of BeHealthy Florida, Inc., an Independent Licensee of the Blue Cross and Blue Shield Association.

All rights reserved. This document may be copied.

2.2 Trading partner Registration

In order to register, you will need:

- Basic information about your practice, including your Federal Tax ID and National Provider Identifier.
- Someone with the legal authority (typically an owner or senior partner) to sign agreements for your organization.
- An office manager or other employee who can oversee the Availity implementation and maintain user ids and access.

2.3 Certification and Testing Overview

All trading partners and clearing houses should be certified via Availity. It is recommended that the trading partner obtain HIPAA certification from an approved testing and certification third party vendor prior to testing.

3 TESTING WITH TRULI FOR HEALTH AND AVAILITY

Truli for Health recommends that trading partners contact Truli for Health to obtain a testing schedule and or notify Truli for Health of potential testing opportunities prior to implementing any foreseen transaction impacts to the business flow of both Truli for Health and/or the trading partner.

4 CONNECTIVITY/COMMUNICATIONS WITH TRULI FOR HEALTH AND AVAILITY

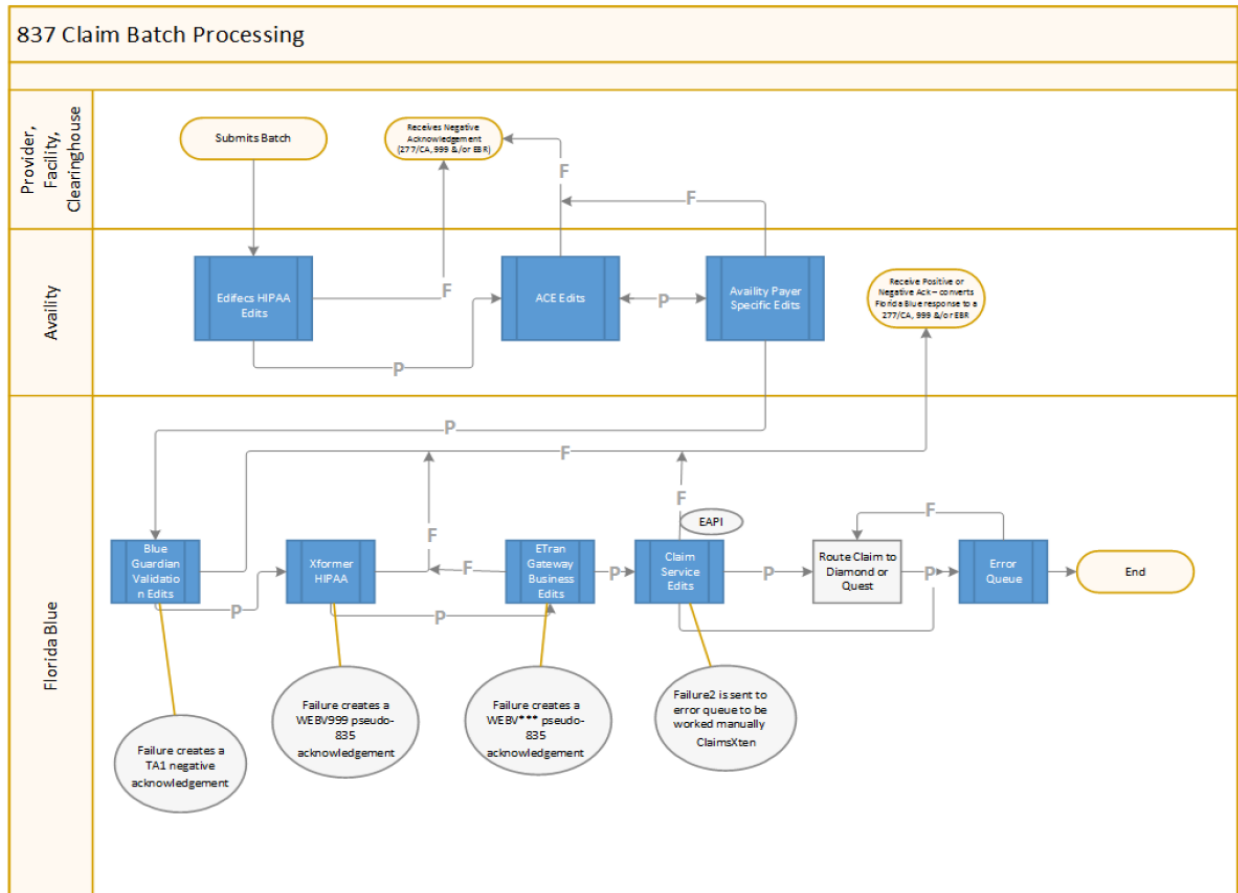

4.1 Process Map

6 CONTROL SEGMENTS/ENVELOPES

ANSI 837 I- Health Care Institutional Claim

The purpose of this section is to delineate specific data requirements where multiple valid values are presented within the 5010 TR3.

- **Interchange control header (ISA06) Interchange Sender ID (Mailbox ID)** – is individually assigned to each trading partner.
- **Interchange control header (ISA08) Interchange Receiver ID** - If submitting directly to Truli for Health use, 592015694 (+ six (6) spaces). If submitting through Availity, use 030240928 (+ six (6) spaces). Reference the Availity EDI guide at availity.com
- **Interchange control header (ISA15) Usage Indicator** – defines whether the transaction is a test (T) or production (P).
- **Functional Group Header (GS02) Application Sender’s code** – is individually assigned to each trading partner.

Global Information

Req #	Loop ID – Segment Description & Element Name	TR3 Data Element	TR3 Page(s)	Plan Requirement
G1	All Transactions for Availity Users only			Truli for Health requires a trading partner agreement to be on file with Availity indicating all electronic transactions the trading partner intends to send or receive.
G2	All Segments			Only loops, segments, and data elements valid for the 837 HIPAA-AS TR3 Guides ASC X12 005010X223A2 will be used for processing.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Req #	Loop ID – Segment Description & Element Name	TR3 Data Element	TR3 Page(s)	Plan Requirement
B5	2000A – Billing Provider Specialty Information	PVR03	80	<p>Taxonomy codes are required by Truli for Health under specific circumstances. Taxonomy is one of several data elements used by Truli for Health to help determine the appropriate provider record for processing. In cases where the NPI is shared by multiple provider entities, specialties or locations, the taxonomy becomes a critical data element. For example:</p> <p>ABC Hospital, Urgent Care, Lab and Physician PA group all share the same NPI. In this case, the taxonomy becomes critical to ensure appropriate processing and fee schedule assignment.</p> <p>Taxonomy codes and descriptors are located at nucc.org.</p>
B6	2000C – Patient Hierarchical Level	PAT01	133	<p>Truli for Health does not accept ANSI 837I transactions which have the PAT01 segment equal to 39 (organ donor).</p> <p>Organ donor claims should be submitted on a UB04 with the appropriate supporting documentation.</p>
B7	2010AA – Billing Provider Postal Code	N4	88	Truli for Health requires submission of a valid nine digit postal zip code.
B8	2010AA – Billing Provider NPI Reference Identification Code	NM109	90	<p>Truli for Health requires the billing providers NPI.</p> <p>Invalid or missing NPI will result in claims being returned as a provider correctable error. These must be corrected and resubmitted electronically.</p>
B9	2010AA – Billing Provider Contact Name Billing Provider Contact Name	PER02	92	Required in the first iteration of the Billing Provider Contact Information Segment.
B10	2010AB – Pay to Provider Postal Code	N4	98	Truli for Health requires submission of a valid nine digit postal zip code.

Req #	Loop ID – Segment Description & Element Name	TR3 Data Element	TR3 Page(s)	Plan Requirement
B30	Coordination of Benefits (COB) Balancing	2320	354	Total Claim Charge Amount and sum of service lines must balance. (CLM02) must be equal to sum of the service line charge amounts (sum of the SV102's).
B31	2320 – Other Subscriber Information Claim Filing Indicator Code	SBR09	356-357	In Loop 2320, if SBR09=MA the Medicare Report Number should be reported in Loop 2330B REF. Note: SBR09=MB is not allowed for the BCBSF Systems.
B32	2330B – Other Payer Name	REF01 REF02	384	In Loop 2320, if SBR09=MA; then the Medicare Report Number needs to be reported in Loop 2330B, in the following REF segment configuration: <ul style="list-style-type: none"> • REF01=F8 • REF02=Medicare Report Number=Medicare ICN Note: SBR09=MB is not allowed for the BCBSF Systems.
B33	2400 – Service Line Number Assigned Number	LX01	423	For Institutional claims Truli for Health will only allow and process 450 service lines per claim. Claims greater than 450 service lines will be returned as a provider correctable error.
B34	2400 – Service Line Number Product/Service ID Qualifier	SV202-1	425	HC Truli for Health requires submission of above value in this field as only HCPCS Procedure codes are accepted by Truli for Health at this time.
B35	2400 – Service Line Number Line Item Charge Amount	SV203	427	The total claim charge amount must equal the sum of all submitted line items. Otherwise will result in claims being returned as provider correctable error and must be corrected and electronically resubmitted. Note: If the whole dollar amounts are submitted, do not include a decimal or trailing zero (e.g. \$30 = 30). When indicating the dollars & cents, the decimal must be indicated (e.g. \$30.12 = 30.12).
B36	2400 – Service Line Number National Drug Code (NDC)	LIN03	451	NDC Format must be eleven numeric digits in 5-4-2 format. Other characters or formats are not allowed.

Truli for Health Plan Companion Guide ANSI 837I Health Care Claim Institutional Transaction Type

Below are reminders to help you reduce the number of WEBV040 and WEBV042 claims errors displayed when claim data (or information) does not match information registered with Truli for Health.

Billing Provider Section

This section is used to provide information regarding the billing provider for services rendered. It should match the name written on the check or electronic funds transfer from Truli for Health.

- i. **OPTION One (1):** If you are registered as a group provider (PA, LLC, etc.) with Truli for Health and you want to bill as a group provider, enter the appropriate group name, Tax ID number and the group NPI (type two).

0. **THE MATCH:** Group Name matches Group NPI matches Group Tax ID

- ii. **OPTION Two (2):** If you are registered as an individual provider with Truli for Health and you are billing as an individual provider, please enter your name, Social Security Number and your individual NPI (type one).

0. **THE MATCH:** Individual Name matches Individual NPI matches Individual Social Security Number

Rendering Provider Section

This section is used to provide information regarding who performed the services. It is the provider who actually sees the patient.

- iii. **OPTION One (1):** If you billed as an organization (PA, LLC, etc.) list the name of the rendering individual provider and the rendering individual NPI.
- iv. **OPTION Two (2):** If you billed as an individual, do not list a rendering provider. This would be redundant as the billing individual would be the same as the **rendering** individual. Submitting redundant information can cause a different provider correctable error.

Below is an example to assist you in understanding the appropriate entry of billing and rendering provider information to reduce the number of returned claims.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availability.com.

Truli for Health is a trade name of BeHealthy Florida, Inc., an Independent Licensee of the Blue Cross and Blue Shield Association.

Billing as a Group Provider – OPTION One (1)

If you are billing as a group provider, (PA, LLC, etc.), the NPI must be the Group NPI (type 2) along with the appropriate Tax ID number for the group.

Please note that the Billing Section is for the entity BILLING for the services. The Rendering Provider Section is for the provider who PERFORMED the services.

Correct Entry (THE MATCH):

This example shows how the information submitted matches data registered with Truli for Health. The Group Name matches Group NPI which matches Group Tax ID number and all match Truli for Health provider files.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Truli for Health is a trade name of BeHealthy Florida, Inc., an Independent Licensee of the Blue Cross and Blue Shield Association.

All rights reserved. This document may be copied.

Incorrect Entries (THE MISMATCH):

Below are examples of information that will result in a mismatch of data causing a WEBV040 provider correctable error ultimately resulting in a delay in payment. The mismatch is highlighted in red.

Remember: Group Name = Group NPI = Group Tax ID Number

To confirm how you are registered with Truli for Health, please call the Provider Contact Center at 800-727-2227, select option five (5), and then option Two (2). If you would like to register a different Tax ID number, please complete the Provider Information Update Form available on Availity.com (sections 1 and 6). A completed IRS confirmation letter must be included.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availity.com.

Truli for Health is a trade name of BeHealthy Florida, Inc., an Independent Licensee of the Blue Cross and Blue Shield Association.

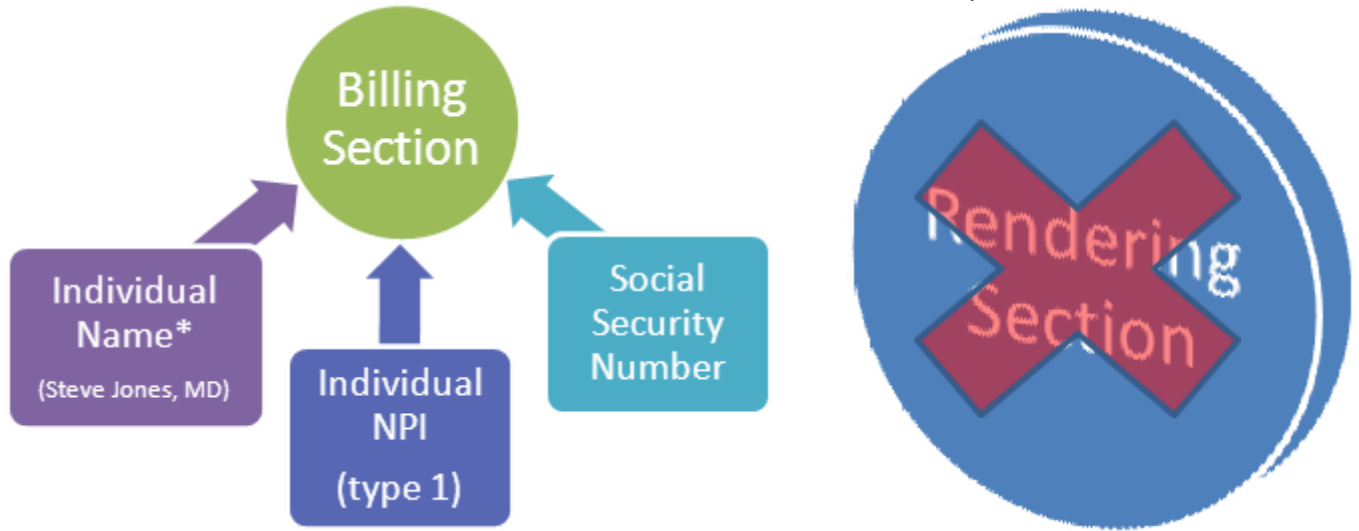

All rights reserved. This document may be copied.

Billing as an Individual Provider – OPTION Two (2)

If you are billing as an individual provider, the NPI must be the individual NPI (type 1) along with the appropriate Social Security Number. Do not enter a provider at all in the rendering section when the billing and rendering provider is the same person. Submitting redundant information can cause a different provider correctable error.

Correct Entry (THE MATCH):

This example shows how the information entered matches data registered with Truli for Health. Individual Name matches Individual NPI matches Individual Social Security Number.

Incorrect Entries (THE MISMATCH):

Below are examples of information entered that will result in a mismatch of data causing a delay in payment. The mismatch is highlighted in red.

REMEMBER: Individual Name = Individual NPI = Individual Social Security Number

To confirm how you are registered with Truli for Health, please call the Provider Contact Center at 800-

Tips for Sending Coordination of Benefits Information on Electronic Claims

837 Institutional Health Care Claims

When Truli for Health is the secondary carrier, file the claim to Truli for Health on the member's behalf only **after the primary insurance has completed processing**. When Truli for Health shows another health plan is primary and there is no primary carrier payment or denial information, the claim will be returned for correction. EXCEPTIONS: Claims submitted with a GY modifier where Medicare would normally be primary, claims from VA/DOD facilities, Medicare Crossover claims.

When Truli for Health files show another health plan is primary, that information is provided on the 837 I Health Care Claim Institutional response. When the primary plan is NOT Truli for Health, the following loops and segments will be required:

NOTE: When the charges, payment amount, deductible, coinsurance, co-pay or adjustment is zero, the AMT or CAS segment must still be submitted. Indicate the zero amounts as zero (0).

R =Required S=Situational	837 Fields	Business Requirement
S	2000B SBR01	Value cannot = P (Primary Payer)
R	Total Claim Charge Amount	Loop 2300 CLM02 - Must balance to the sum of all service line charge amounts reported in Loop 2400 SV203.
R	Claim Payment Amount	When Truli for Health is secondary, submit the primary insurer payment information to support correct processing of COB information. 2320 AMT01 = D; REQUIRED 2320 AMT02 – Sum of all Line level Payment Amount minus any Claim Level Adjustment amounts must balance to Claim level Payment Amount.
R	Patient Responsibility	Loop 2300 HI01-1 = BE, HI01-2 = Value Code (A1- Deductible, A2 – Coinsurance and A7 – Copay) and HI01-5 = Amount*Note: The first value code will be reported as HI01; the second will be HI02 and will continue up to 12 value codes.
R	Health Care Service Location Information	When the institutional claim is for inpatient services (loop 2300, CLM05-1=11), the number of covered days is required and is calculated starting from the admit date to the day before discharge. In Loop 2300 use the following HI segment configuration: HI01-1 = BE, HI01-2 = 80, HI01-5= number of days.
S	Inpatient Adjudication Information	Required when Inpatient adjudication Information is reported in the remittance advice or used to report Medicare Remittance Remarks Codes. Refer to TR3, pages 391-397 for details.

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availability.com.

8 ACKNOWLEDGEMENTS AND/OR REPORTS

The purpose of this section is to outline the Truli for Health processes for handling the initial processing of incoming files and electronic acknowledgment generation.

TA1 Interchange Acknowledgement Transaction

All X12 file submissions are pre-screened upon receipt to determine if the interchange control header (ISA) or interchange control trailer (IEA) segments are readable. If errors are found, a TA1 response transaction will be sent to notify the trading partner that the file could not be processed provided the file contains a code value of one (1) in the ISA14. No TA1 response transaction will be sent for error-free files.

Once Truli for Health determines that the file is readable, validation is performed on the ISA and IEA loop information. If these segments have a non-standard structure, the file will receive a full file reject and the TA1 response transaction will be sent to the trading partner, provided the file contains a code value of one (1) in the ISA14. Once Truli for Health determines that the file is readable, validation is performed on the ISA and IEA loop information. If these segments have a non-standard structure, the file will receive a full file reject and the TA1 response transaction will be sent to the trading partner, provided the file contains a code value of one (1) in the ISA14.

999 Functional Acknowledgement Transactions

If the file submission passes the ISA/IEA pre-screening above, it is then checked for ASC X12 syntax and HIPAA compliance errors. When the compliance check is complete, a 999 will be sent to the trading partner informing them if the file has been accepted or rejected. If multiple transaction sets (ST-SE) are sent within a functional group (GS-GE), the entire functional group (GS-GE) will be rejected when an ASC X12 or HIPAA compliance error is found.

9 TRADING PARTNER AGREEMENTS

Please contact Availity for your trading partner agreement at 800-282-4548 or availability.com.

10 TRANSACTION SPECIFIC INFORMATION

IMPORTANT NOTE: If you submit your transactions through Availity, please refer to the Availity EDI Guide located on the Availity website at availability.com.
