Here Is a Reminder About Health Assessments for Our Members

We want to remind you about the comprehensive health assessments we are offering to your high-risk Florida Blue Commercial PPO and HMO patients at no additional cost to them. These assessments are designed to complement the care you already provide your patients.

What You Need to Know

We are working with a care partner, PopHealthCare, LLC, to have nurse practitioners conduct these screenings on our behalf. This care partner will be reaching out to your Florida Blue Commercial patients to schedule an appointment for the health assessment.

A copy of the patient's assessment results will be shared with you. Please add it to the patient's medical record and schedule any follow up appointments needed.

Your Florida Blue Commercial patients who qualify for these telehealth assessments will receive letters and postcards offering them this opportunity. In addition, we will be calling them to schedule appointments with the nurse practitioner. We hope you will encourage your patients to take advantage of this opportunity available to them.

For more information, please contact the ACA Risk Adjustment Operations Team via email at acaprospective@floridablue.com
