<p>The Medicare Prescription Payment Plan is a voluntary payment option that works with your current drug coverage to help you manage your out-of-pocket Medicare Part D drug costs by spreading them across the calendar year (January-December). <b>This payment option may help you manage your expenses, but it doesn't save you money or lower your drug costs.</b> This payment option might not be the best choice for you if you get help paying for your prescription drug costs through programs like Extra Help from Medicare or a State Pharmaceutical Assistance Program (SPAP). Call your plan for more information.</p>

- You may opt out of the program at any time. If you opt out, you will still be responsible for paying any remaining balance.
