OneTouch Diabetes Supplies Removed from Commercial Plan Formulary Starting October 1, 2025

As of October 1, 2025, OneTouch diabetes supplies will no longer be covered under Florida Blue and Truli for Health (Truli) commercial plan formularies. Members using OneTouch products may consider switching to preferred brands, Ascensia Contour® or Abbott Freestyle, for **best coverage and no increased costs**.

We notified members of this formulary change the week of July 28, 2025. They also received a coupon for a no charge Ascensia Contour or Abbott Freestyle meter.

Members may contact you to request a new prescription for Ascensia Contour or Abbott Freestyle diabetes products. Please consider the following information.

Considerations

- If a member prefers OneTouch supplies, they must pay out-of-pocket. This expense may not apply to their deductible or out-of-pocket maximum.
- Abbott Freestyle is different from the Freestyle Libre continuous glucose monitor products, which require a step therapy request via CoverMyMeds.
- Members may contact their providers for help with the transition and request a new prescription for an alternative brand product.

How You Can Help

If you receive requests from our members to switch from OneTouch to one of the alternative brands, you can assist by prescribing Ascensia Contour or Abbott Freestyle diabetic supplies, including meters, test strips, and lancets.

Refer to the table below for alternative diabetic supplies covered on or after October 1, 2025.

Diabetes Testing Supplies Not Covered Effective October 1, 2025	Covered Alternatives (in most cases at a same cost share)
OneTouch Ultra test strips	CONTOUR ¹ NEXT test strips FreeStyle ² Lite test strips FreeStyle Freedom Lite test strips
OneTouch Verio test strips	CONTOUR NEXT test strips FreeStyle Lite test strips FreeStyle Freedom Lite test strips

HMO coverage is offered by Truli for Health and Florida Blue HMO, affiliates of Florida Blue. Health insurance is offered by Florida Blue. These companies are independent licensees of the Blue Cross and Blue Shield Association.

Diabetes Testing Supplies Not Covered Effective October 1, 2025	<i>Covered Alternatives</i> (in most cases at a same cost share)
