

Evolut Prior Authorization Programs for Medicare Advantage Members

Code Updates for Cardiovascular Services, Oncology and Hematology, and Radiation Oncology

Our Medicare Advantage prior authorization programs offered through Evolut, the parent company of New Century Health, were updated, effective **April 15, 2024**. The updates apply to the Healthcare Common Procedure Coding System (HCPCS)/Current Procedural Terminology (CPT®) codes for the following prior authorization programs:

- Cardiovascular Services
- Oncology and Hematology
- Radiation Oncology

All HCPCS/CPT codes included in a services claim must be the same as the HCPCS/CPT codes authorized by Evolut to avoid denial. If the authorized codes do not match what is billed on the claim, the authorization will be considered invalid, and the billed services will be denied.

The member's physician must complete the prior authorization request using one of the following methods.

- Log into Evolut's provider portal at the [New Century Health/Evolut](#) website
- Call 1-888-854-2098, Option 1 (Cardiology), Option 2 (Medical Oncology), or Option 3 (Radiation Oncology), Monday–Saturday, 8 a.m.–8 p.m., Eastern Time.

The medical policy guidelines can be obtained [here](#).

Access the updates to the code lists for the prior authorization programs mentioned above, at the following hyperlinks:
