

June 2024

Register to Attend Florida Blue's Next HEDIS Innovations Webinar on July 30

Presented by the Federal Employee Program

In support of Florida Blue's mission to help people and communities achieve better health, we are continuing the webinar series presented by our Federal Employee Program® (FEP). The series is designed to summarize specific Healthcare Effectiveness Data and Information Set (HEDIS®¹) measures and share best practices.

Our next HEDIS Innovations Webinar will take place Tuesday, July 30 from noon – 1:15 p.m. Eastern Time.

Join us for this interactive session led by the Florida Blue FEP Senior Medical Director, which will include time for questions and answers. You will learn about the latest changes, tools you can use to close care gaps, and much more. This, in turn, may help you implement National Committee on Quality Assurance² best practices in your office. We encourage physicians, mid-level providers, nurses, population health staff, clinical training staff, quality care team members, and coding managers to attend.

About Our Second Webinar

The second webinar will focus on **Follow-Up After Emergency Department Visit for Mental Illness (FUM)** and **Emergency Department Utilization (EDU)**. We will discuss various options for acute care, advantages for post discharge evaluation, plus limitations patients encounter due to out-of-pocket costs. We will also share documentation tips and strategies to improve your coding opportunities and resources that GuideWell offers to help your patients, our members.

To register for the July 30 HEDIS Innovations Webinar, [click here](#).

Future webinar topics will include Cardiovascular Disease: Statin Use in Patients with Cardiovascular Disease (SPC), Asthma Medication Ratio (AMR), and Antidepressant Medication Management (AMM).

We look forward to your participation.
