

Update: Genoa Pharmacy Now In-Network for Dispensing and Administering Long-Acting Antipsychotic Injectable Drugs

As announced earlier this year, Genoa Healthcare® (Genoa) Pharmacy, a provider of long-acting injectable (LAI) antipsychotic and substance use disorder drugs and services, is in-network for dispensing LAI drugs under Florida Blue and Truli for Health (Truli) pharmacy benefits. Now, Genoa is also in-network for both dispensing and *administering* LAI antipsychotic and substance use disorder drugs in Florida in-state locations. The locations may be found at the Genoa website included below.

As a reminder, on July 1, 2024, Florida Blue and Truli expanded LAI drug access for antipsychotic and substance use disorder services for commercial members with pharmacy benefits. Florida Blue and Truli in-network plans with pharmacy benefits include the following BIN/PCN combinations:

Commercial Plans	BIN/PCN
Florida Blue	BIN: 012833, PCN: FLBC
Truli	BIN: 012833, PCN: THP

Now, you can opt to have Genoa perform the administration, by visiting Genoa’s website (see below) to schedule. Or you can order LAIs to be delivered to your location for you or your team to administer. A list of LAI drugs is included below.
