Network Status

The table below offers a comprehensive list of provider networks. Refer to your service type to determine if the network is open. If the network for your service type is open, complete the appropriate Provider Request to Participate Form.

If the network is listed as closed, please check back with us periodically. Florida Blue is constantly evaluating our networks needs and the status is subject to change.

Providers must register with us in order to submit a request to participate. If you are not a registered provider, complete the Provider Registration Form.
