

# truli smarter

## **Better care. A simpler experience.**

We believe quality care goes beyond picking the top local providers. That's why Truli offers programs, plans and advice to help members stay healthy even after they've left the doctor's office. And the best part is, it's all in one convenient place. The **Truli for Health app** and portal helps them manage, monitor and improve their overall health. From accessing virtual visits, to tracking their health care progress, to earning rewards for healthy habits — everything is designed with simplicity in mind.

## **Healthy rewards.**

We've created an incentive-based program called **Truli for Me** that encourages members to track their health. Every time they get an annual wellness check-up, adopt a healthy habit or take steps to manage a chronic condition, they can earn rewards. Rewards can be used toward doctor visits, prescriptions and other health expenses.

## **Quality local providers.**

Truli partners with some of the region's top local providers, offering members convenient access to an integrated care team right where they live and work. Truli physicians are dedicated to their patient's well-being and coordinating their care. So even those with complex health concerns get the personalized attention they deserve.

## Specialized care.

Truli has special programs and resources that go hand-in-hand with a doctor's personalized treatment plan. Working closely with the medical community makes it easier for our members to receive quality care at affordable prices.

## Predictable, affordable costs.

We've optimized our plans to provide easy-to-understand, predictable pricing that helps you and your employees plan ahead. We offer fixed costs for common health care services, such as:

- \$0 annual wellness checkups
- \$10 virtual visits\*
  - \* Members can take advantage of this benefit by checking the online provider directory to see which doctors are in our virtual visit network.*
- \$20/\$25 family physician visits\*
- \$65/\$75 urgent care visits\*
  - \* If your plan includes a Health Savings Account, you'll pay your deductible first and then the applicable copay.*
- \$0 preventive prescriptions
- \$5 copays for physician office services, supplies and drugs for certain ongoing health conditions like high blood pressure, high cholesterol, asthma/ COPD, certain heart conditions and diabetes
- Access to all major retail pharmacies in our network, and extra savings when using a Truli-preferred pharmacy

Quality network of local physicians

A great patient experience

Predictable costs

Planning ahead is easy

Simplified process

Easy-to-understand benefits
