Disclosure Statement

The Truli for Health HIPAA Transaction Standard Companion Guide for EDI Transactions Technical Reports, Type three (3) (TR3) provides guidelines for submitting electronic batch transactions. Because the HIPAA ASC X12-TR3s require transmitters and receivers to make certain determinations /elections (e.g., whether, or to what extent, situational data elements apply) this Companion Guide documents those determinations, elections, assumptions or data issues that are permitted to be specific to Truli for Health business processes when implementing the HIPAA ASC X12 5010 TR3s.

This Companion Guide does not replace or cover all segments specified in the HIPAA ASC X12 TR3s. It does not attempt to amend any of the requirements of the TR3s or impose any additional obligations on trading partners of Truli for Health that are not permitted to be imposed by the HIPAA Standards for Electronic Transactions. This Companion Guide provides information on Truli for Health specific codes relevant to Truli for Health business processes, rules and situations that are within the parameters of HIPAA. Readers of this Companion Guide should be acquainted with the HIPAA ASC X12 TR3s, their structure and content.

This Companion Guide provides supplemental information that exists between Truli for Health and its trading partners. Trading partners should refer to their trading partner Agreement for guidelines pertaining to Availity LLC, legal conditions surrounding the implementation of the EDI transactions and code sets. However, trading partners should refer to this Companion Guide for information on Truli for Health business rules or technical requirements regarding the implementation of HIPAA-compliant EDI transactions and code sets.

Nothing contained in this Companion Guide is intended to amend, revoke, contradict or otherwise alter the terms and conditions of your applicable trading partner agreement. If there is an inconsistency between the terms of this Companion Guide and the terms of your applicable trading partner agreement, the terms of the trading partner agreement will govern. If there is an inconsistency between the terms of this Companion Guide and any terms of the TR3, the relevant TR3 will govern with respect to HIPAA edits and this Companion Guide will govern with respect to business edits.

1 INTRODUCTION

The Health Insurance Portability and Accountability Act (HIPAA) requires that the health care industry in the United States comply with the electronic data interchange (EDI) standards as established by the Secretary of Health and Human Services. The Technical Reports Type three (3) Guides (TR3s) for the ANSI 270/271 Eligibility Benefit Inquiry and Response transaction specifies in detail the required formats. It contains requirements for the use of specific segments and specific data elements within segments and was written for all health care providers and other submitters. It is critical that your software vendor or IT staff review this document carefully and follow its requirements to send HIPAA-compliant files to Truli for Health via your vendor. The ASC X12 005010X279A1 is the established standard for Eligibility Benefit Inquiry and Response (ANSI 270/271).

1.1 Scope

This ANSI 270/271 Companion Guide was created for Truli for Health trading partners to supplement the ANSI 270/271 TR3. It describes the data content, Truli for Health business rules and characteristics of the ANSI 270/271 transaction.

6 ACKNOWLEDGEMENTS AND/OR REPORTS

The purpose of this section is to outline the Truli for Health processes for handling the initial processing of incoming files and electronic acknowledgment generation.

TA1 Interchange Acknowledgement Transaction

All X12 file submissions are pre-screened upon receipt to determine if the interchange control header (ISA) or interchange control trailer (IEA) segments are readable. If errors are found, a TA1

¹Availity, LLC, is a multi-payer joint venture company. For more information or to register, visit availability.com.

response transaction will be sent to notify the trading partner that the file could not be processed provided the file contains a code value of one (1) in the ISA14. No TA1 response transaction will be sent for error-free files.

Once Truli for Health determines that the file is readable, validation is performed on the ISA and IEA loop information. If these segments have a non-standard structure, the file will receive a full file reject and the TA1 response transaction will be sent to the trading partner, provided the file contains a code value of one (1) in the ISA14.

999 Functional Acknowledgement Transactions

If the file submission passes the ISA/IEA pre-screening above, it is then checked for ASC X12 syntax and HIPAA compliance errors. When the compliance check is complete, a 999 will be sent to the trading partner informing them if the file has been accepted or rejected. If multiple transaction sets (ST-SE) are sent within a functional group (GS-GE), the entire functional group (GS-GE) will be rejected when an ASC X12 or HIPAA compliance error is found.

7 ASC X12 TRANSACTIONS SUPPORTED

Truli for Health processes the following ASCX12 HIPAA transactions for Eligibility and Benefit Request:

ASC X12 270 ASC X12 005010X279A1	Eligibility and Benefit Inquiry
ASC X12 TA1 v005010X231A1 (HIPAA)	Response to the X12 transactions where errors are encountered in the outer envelopes (ISA/IEA and GS/GE segments)
