

It Is Hurricane Season: Important Reminders During Natural Disasters and a State of Emergency

In the event of a natural disaster or state of emergency, use the guidelines below if you are unable to follow normal business procedures or communicate with Florida Blue or Truli for Health (Truli).

Please remember to accept member ID cards from Florida Blue or Truli members during an emergency or natural disaster (hurricanes, tropical storms, etc.). Also, when a state of emergency is declared by the governor, we will automatically let our members get an emergency supply of drugs. This would apply to the affected counties listed in the governor's order.

Note: We may not be communicating these specific guidelines before every natural disaster or state of emergency. If other business procedures are impacted, we will share those with you. Keep these guidelines handy so you can refer back to them during hurricane season.

Emergency Supply of Drugs

During a state of emergency, Prime Therapeutics will provide all in-network pharmacies in the state of Florida with authorization codes to fill a 30-day emergency supply upon request.

For controlled substances, specialty and prior authorization overrides, members should call the number on the back of their member ID card for emergency refill requests or call their pharmacy. Providers should call the commercial pharmacy help desk at **888-877-6323** or the Medicare pharmacy help desk at **888-877-6420**.

Accept the Member ID Card Guidelines
