### Find a doctor

It's fast and simple to find a doctor or facility in the BlueSelect network.

#### Florida Blue members:

- Log in to your account at **FloridaBlue.com**, or the mobile app. You can search by location, type of doctor, or even the language they speak.

#### Not a member yet?

#### No problem!

- Go to **FloridaBlue.com**, and enter BlueSelect in your search.

### Stay in the network and save

BlueSelect offers a dedicated group of doctors, hospitals, pharmacies, and other facilities ready to serve you. You'll usually pay less when you see health care providers who are part of the network<sup>6</sup> and understand how your plan works.

#### Get approval ahead of time

To help you get the most value from your benefits, you'll need an approval from Florida Blue before you can have certain medical services, like MRI scans and sleep studies. If not, you could pay the total cost. Visit [FloridaBlue.com/Authorization](https://www.floridablue.com/Authorization), or call us to check.

#### Use only BlueSelect providers for these services

While you always have a choice of where to go for care, the services and supplies listed below are covered ONLY if you use the doctors and other providers designated as in-network within the BlueSelect network. If you do not use an in-network provider, you may have to pay the full cost for:

- Prescription drugs
- Dental and vision care
- Clinical laboratory tests ordered by a doctor unless done at Quest Diagnostics
- Home health services, like visiting nurses, physical therapy, speech-language therapy, and occupational therapy
- Durable medical equipment and medical supplies that a doctor orders as part of treatment or are supplied as a service

#### Out-of-network care

Services covered outside the BlueSelect network have a higher cost share. For example, if you go to an in-network facility but are treated by an out-of-network doctor (like an anesthesiologist or radiologist), you may pay more. If your provider charges more than the maximum amount your plan will pay for that health care service, you may have to pay the difference.

#### Know your options for urgent care

If you need care right away and your regular doctor is not available, consider using an urgent care center instead of the emergency room. These centers can usually save time and money on care for minor illnesses and injuries. In a real emergency, always go to the nearest emergency room, and you're covered.

#### Worldwide coverage

You take your health coverage with you when you are abroad. Through the Blue Cross Blue Shield Global Core Program, you have access to doctors and hospitals around the world.
