Introduction

Welcome to your Truli Rx Flex Medication Guide!

The Truli Rx Flex Medication Guide contains information about the drugs we cover for your plan. This guide gives you helpful tips on how to make the most of your pharmacy benefits. It includes a list of the generic, brand-name, and specialty prescription drugs that your plan covers.

This Medication Guide does not extend, vary, alter, replace or waive any of the provisions, benefits, exclusions, limitations, or conditions contained in your plan documents. These documents are your Benefit Booklet and Schedule of Benefits. Check your plan documents to find your complete coverage details.

How to save money on prescription drugs

Be mindful of your drug's tier

Truli for Health organizes covered drugs into levels called “tiers.” Typically, the lower the tier, the more cost savings you can expect, especially when you use a Truli Preferred pharmacy.

Retail Drugs

Retail drugs are drugs your doctor prescribes that you can fill at a local pharmacy.

Tier	What's included
1	Drugs covered under the US Preventive Services Task Force (USPSTF) A/B List We cover certain preventive care drugs for no cost share when you fill them at a Truli Preferred pharmacy to help you manage your health and well-being USPSTF Preventive Drugs List
2	Truli for Me programs (low cost) We designed the Truli for Me programs to help manage the cost of drugs used to treat certain conditions. When you take part in Truli for Me programs, you pay a lower cost share for drugs listed on this tier Truli for Me Drug List
3	Lowest cost generic prescription drugs and supplies
4	Truli for Me programs (high cost) We designed the Truli for Me programs to help manage the cost of drugs used to treat certain conditions. When you take part in Truli for Me programs, you pay a lower cost share for brand-name drugs listed on this tier Truli for Me Drug List
5	Moderate cost generic and brand-name prescription drugs and supplies
6	Highest cost generic and brand-name prescription drugs and supplies Drugs that we approve through exception <i>Lower cost alternatives exist</i>

Specialty Drugs

Specialty drugs generally need a provider to closely monitor you during your therapy. They are high-cost injectable, infused, oral or inhaled drugs.

Tier	What's included
7	Lowest cost generic and brand-name specialty drugs
8	Moderate cost generic and brand-name specialty drugs
9	Highest cost generic and brand-name specialty drugs Specialty drugs that we approve through exception <i>Lower cost alternatives exist</i>

Calculate your cost share

Truli encourages you to use generic drugs whenever possible. Generic drugs must have the same active ingredients and work the same as their brand-name equals to obtain FDA approval. This is an easy way to get high-quality drugs at reduced costs.

If you or your provider requests a covered brand name medication when there is a generic medication available; you will be responsible for:

- the difference in cost between the generic medication and the brand name medication; and
- the cost share applicable to brand name medication, as indicated on your Schedule of Benefits.

NOTE: If you have a deductible, you must meet your deductible prior to the cost share applying.

If your prescriber requires the use of a brand name medication for medical reasons, supporting documentation must be provided to avoid being

responsible for the cost difference between the brand and generic drug. To request an exception to the cost difference, the prescriber will need to submit a request [here](#).

Share this drug list with your doctor to ensure your doctor knows what drugs we include in your plan. Then, decide together if choosing a generic drug is right for you.

Log in to your [Truli for Me](#) portal to compare drug costs and find your cost share for a drug.

Where to get your prescription drugs

Use a Truli Preferred Retail Pharmacy

You have options when you need to fill a prescription. Having your drugs filled at one of our Truli Preferred pharmacies offers the best value.

When you fill your prescriptions at one of our Truli Preferred pharmacies, you pay less for your drugs than you would at other pharmacies. Log into your Truli for Me portal to find a Truli Preferred pharmacy near you.

A three-month supply saves you time and money.

To save you money and trips to the pharmacy, ask your doctor for a prescription for a three-month supply of your drug.

Specialty Pharmacy Network

You must fill your specialty drugs at one of the following pharmacies:

[CVS Specialty Pharmacy](#)

All Specialty Products
Phone: 866-278-5108
Fax: 800-323-2445
Hemophilia Products
Phone: 866-792-2731
Fax: 866-811-7450

[CAN Community Health Pharmacy](#)

Specialty HIV and Hepatitis C Products
Phone: 844-370-6204

Only these pharmacies are in-network for specialty drugs. A pharmacy can be in-network for retail or home delivery drugs and still not be in-network for specialty drugs.

Most specialty drugs are limited to a 30-day supply per fill.

Home Delivery (Mail Order Pharmacy)

Home delivery provides an affordable way for you to get your maintenance medications – prescription drugs you take regularly to treat ongoing conditions.

With [home delivery](#), you can order up to 90-days' worth of maintenance medicine through the mail. It's a convenient way to fill your prescriptions and using home delivery may help you save money.

Home delivery pharmacy is serviced by Amazon Pharmacy. To confirm your home delivery pharmacy provider, log into truliforhealth.com and view the home delivery section in your member portal for additional details.

Getting started with home delivery

If you have a 90-day supply prescription from your doctor and are ready to start a home delivery order, visit myprime.com to create your account and manage your prescriptions online.

You can also call the pharmacy at 855-206-2634 to speak to a member of the pharmacy team. Representatives are available weekdays from 8 a.m. to 10 p.m., Eastern time (ET), and weekends from 10 a.m. to 8 p.m., ET.

NOTE: If the original prescription was filled at a pharmacy other than the home delivery pharmacy, a new, original three-month supply prescription with a quantity of up to a three-month supply and not less than a two-month supply will be required. Prescriptions may not be transferred from a retail pharmacy to the home delivery pharmacy.

Non-Participating Pharmacy

Your plan only covers out-of-network pharmacies for Urgent or Emergency Care. You may have to pay the full cost of the drug if you go to a non-participating pharmacy.

Need your drugs while traveling? You're covered.

We understand that there may be times when you're traveling and need your drugs or have a provider give them to you.

Retail Drugs

If you have a written prescription, simply fill these

prescriptions at one of our preferred pharmacies. Many of our preferred pharmacies have national locations.

Provider-administered

If you need provider-administered drugs while you're traveling, ask your prescribing doctor to coordinate with a participating provider in that area before you travel.

Commonly referenced drug information

This section includes information about drugs our members reference most often.

Drugs we do not cover

Truli Rx Flex is an open formulary pharmacy plan. This means that we offer a wide variety of drug coverage. There are instances where drugs are not covered. This can include drugs that have a history of adverse effects, drugs no longer marketed, or because of safety concerns.

[Drugs Not Covered List](#)

Immunizations

We cover certain vaccines for no cost share under your plan's preventive benefits.

You can get vaccinations from your doctor or a certified pharmacist.

[Preventive Vaccines List](#)

Women's preventive drugs and devices

We cover certain contraceptive drugs or devices at no cost share to you when:

- a doctor or other health care provider (not a pharmacist) prescribes them
- you purchase them from a Truli Preferred pharmacy

Examples: oral contraceptives, emergency contraceptives and diaphragms

[Women's Preventive Services List](#)

Provider-administered specialty drugs

Your doctor's office may order and give you certain drugs. Your plan covers these drugs as part of a necessary medical visit, rather than through your pharmacy, prescription drug benefits. The cost for provider-administered drugs can be found under the Medical Pharmacy benefit in your Schedule of Benefits.

[Provider-Administered Specialty Drugs List](#)

Oral chemotherapy drugs

Doctors prescribe oral chemotherapy drugs (cancer fighting drugs you take by mouth) to kill or slow the growth of cancerous cells.

[Oral Chemotherapy Drug List](#)

New-to-market drugs

We may not cover newly marketed drugs until the Pharmacy & Therapeutics Committee has reviewed them. It is always a good idea to reference this list when a new drug is introduced in the market.

[New to Market Drug List](#)

HIV drugs

Drugs to treat HIV are included in the specialty pharmacy program and must be filled at an in-network specialty pharmacy.

HIV drugs are covered for up to a 90-day supply per fill.

For information on specific drugs, refer to this medication guide or log in to your [Truli for Me](#) portal.

Prescription drug list frequently asked questions

Who develops the drug list?

Truli for Health and Prime Therapeutics' National Pharmacy & Therapeutics Committee decide the drugs we include in the drug list. We review this list quarterly (every three months). Truli uses current safety, effectiveness, and therapy usage information to decide if we need to make changes to the list.

We reserve the right to add or remove a drug or change a drug's tier at any time. For example, we might only include the following in the drug list:

- One manufacturer's product when a drug with the same active ingredients, supply or equipment is made by two or more different manufacturers.
- One dosage or form of a drug when a drug with the same active ingredient is available in different dosages or forms from the same or different manufacturers.

Why do you make changes to the drug list?

Some reasons we make changes to the drug list include:

- Our Pharmacy & Therapeutics Committee approves new drugs.
- Our Pharmacy & Therapeutics Committee removes drugs for safety reasons.
- Manufacturers remove drugs from the market.
- Generic drugs of brand-name drugs become available. Usually, this puts the brand-name drug in a higher tier because the generic drug is less costly.

Does my plan cover over-the-counter (OTC) drugs?

Your plan covers a limited selection of OTC drugs. Your doctor must prescribe it for us to cover it.

The drug list changes throughout the year. Check your Truli for Me portal from time to time to see if we've added your OTC drugs to the list.

Protocol Exemption Request for Members

Your doctor may want to prescribe a medication, medical procedure or course of treatment for a condition that is different from the step-therapy protocol developed by Truli for Health.

If this is the case, either you or your doctor can request an exemption by submitting a Protocol Exemption Request.

How to submit a Protocol Exemption Request for medical procedures, treatments, or medications **under a medical benefit:**

- Members: Use the Member Protocol Exemption Request form
- Complete the entire Protocol Exemption Request form along with the request for authorization services and medications your doctor wants to use to treat your medical condition. Fax the request and all necessary documents to us at **1-877-219-9448**. Please be sure to provide **all necessary medical records and documentation** required for us to determine an exemption.

How to submit a Protocol Exemption Request for medications **under a pharmacy benefit:**¹

- You will use either the Step Therapy form or the Prior Authorization form. Submit with the step-therapy protocol to Prime Therapeutics either by fax at **1-855-212-8110** or [CoverMyMeds](#). Please be sure to provide **all necessary medical records and documentation** required for us to determine an exemption. Members, if you're not sure which form to use, call the number on the back of your member ID card.
 - [Step Therapy forms](#)
 - [Prior Authorizations forms](#)

Important information for **all Protocol Exemption Requests:**

- **Please don't use the Protocol Exemption Request if your Pre-Service Request was denied.** If your doctor submitted a Pre-Service Request and that was denied, please follow the standard appeal process.

Truli for Health will review and determine approval or denial of your Protocol Exemption Request within 72 hours for an urgent request or 15 calendar days for a non-urgent request. We'll notify you and your doctor with the result by letter.

If the protocol exemption request is denied, you or your doctor can appeal. To do so, submit a completed appeal form based on your benefit. Please allow 30 days for appeals to be reviewed.

To find the appeals form, log in to your member account. Select My Claims at the top and then under the Appeals section, click Submit an Appeal. Download and complete the form and mail it in as instructed on the form.

Have questions? We're here to help. Call us at the number on the back of your member ID card. Health care providers can call us at **1-833-238-8144** with questions.

¹Truli for Health's pharmacy policies under these Utilization programs are in compliance with Florida law 627.42393.

1. Drug Name

The drug list is organized into broad categories (e.g., HORMONES, DIABETES AND RELATED DRUGS). Please use the drug search function (Ctrl+F) to find current information for drugs on the drug list. Generic drugs are shown in lower-case **boldface** type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand. Brand prescription drugs are shown in capital letters followed by the generic name. The Requirements/Limits column displays information about whether that drug requires prior authorization, step therapy, limited distribution, or quantity limits. Below are the meanings of the indicators used in the Drug Tier and Requirements/Limits columns.

2. Drug Tier

Indicates the formulary tier level for each drug.

3. Specialty (SP)

Indicates this is a self-administered specialty drug.

Note: Additional information about specialty drugs can be found in this document under Specialty Pharmacy medications, Self-Administered.

4. Requirements/Limits

- Prior Authorization (PA)- Some drugs require prior authorization to ensure appropriate use and prescribing before a drug will be covered. Coverage may be approved after certain criteria are met. Approval is required for claims to process at network pharmacies. If the PA indicator is present, then the PA program noted is possibly applied to your benefit.

[Prior Authorization Program Information and Request Forms](#)

- Step Therapy (ST)- Requires members to try another drug that may be more safe, clinically effective and, in some cases, less expensive, before a more expensive drug will be approved. If the ST indicator is present, then the ST program noted is possibly applied to your benefit.

[Step Therapy Program Information and Authorization Forms](#)

- Limited Distribution (LD)- Drug manufacturers will choose one or limited number of specialty pharmacies to dispense drugs. Additional information about limited distribution drugs can be found in this document under Participating Pharmacy.
- Quantity Limits (QL)- Certain drugs have quantity limits to encourage safe and appropriate use. The quantity limit is the maximum quantity that can be dispensed over a given period of time. If the QL indicator is present, then the QL program noted is possibly applied to your benefit.
[Quantity Limit Program Information and Exception Request Form](#)

Some plans may have Utilization Management (UM) programs (e.g., PA, QL, and ST) on additional drugs beyond those noted in this document.
