Changes to Help Streamline Prior Authorization For Continuous Glucose Monitors and Supplies

We are making a change to our prior authorization process in Availity®¹ to help streamline the automated process for approval. This applies to continuous glucose monitors and supplies for Medicare Advantage members and becomes effective April 15, 2023.

With this change, when you enter an authorization request in Availity with one of the drug Healthcare Common Procedure Coding System (HCPCS) codes from the list below, you will be prompted to enter the 11-digit National Drug Code (NDC) in lieu of the unclassified code.

Note: The NDC will include a description for ease of entry.

Entering the NDC will assist in streamlining automated approval process.
